The American Forestry Association (AFA) is
the nation's oldest citizens' conservation organization.

The goal of AFA members throughout America is
to protect and care for our nation's trees and forest ecosystems.

THE NATIONAL REGISTER OF BIG TREES

May 1988

The Big Trees program is one example of the important work done by AFA. AFA members are involved in tree and forest conservation efforts in cities, towns, rural, and wilderness areas all over America.

Enclosed in the back of this publication are AFA membership forms. If you are already a member, thank you. If not, please join us now -- and tell a conservationist friend about AFA -- ask them to join too!
